## BACKGROUND INFORMATION

In this global trend era fundraising has become a taxing effort but its worthy trying. In 2011 RYDA as an organisation start a fundraising drive to strengthen its vocational training centre and its community programmes.

RYDA approached Crossroads Foundation Hong-Kong for a possible support and help; in 2012 the project was approved and there after the process of filling the form and undergoing the process of scrutiny began. We need to applaud the crossroads foundation team and board for accepting to work with our organisation in this noble cause. A lot in this process was learnt and a new a experiential learning

## **OBJECTIVES OF THE PROJECT**

The project was initiated with specific objectives:

- Equipping the RYDA centre with the necessary training materials and equipment and tools.
- Supporting the community outreach programmes
- Providing the necessary care for our children and the vulnerable community
- Improving our literacy programmes both at the centre and in our communities both formal and non-formal education

## **PROJECT PROCESS**

The approval of this project underwent several processes. By the crossroads terms these are referred to as stages the critical ones are between stage one, two, three and four. The process helps each side to get better information and building work synergies

Regular and prompt communication from both sides also was vivid. I want to thank Abraham and his team for an excellent regular communication they have exhibited since the project started. I want also take this opportunity to inform them that their efforts they put in this entire process will always be remembered. You are a brilliant team to work with.

## **APPROVAL OF PROJECT**

The project was approved in the late 2012 and the final process seriously early 2013. And the container was received at RYDA center on the 3<sup>rd</sup> October 2013.

## **ST. MARGARET UNITING CHURCH SUPPORT**

Special thanks go to St Margeret Uniting church for their continued support over the years. When we approached them for the support for this noble cause they supported. The transportation and clearing of these goods would not have been possible without them giving a hand. We want to thank all those who donated their time, advise, money and prayers. Empathetic and Sympathy you exhibited in the project process need not to be emphasised. We have continued to serve our clientele because of you. Thanks you very much for the support.

**RYDA Main entrance**

The above pictorial view shows the RYDA Training Centre Canteen and Office. This is where the day today work takes place and it is where the acquired materials, equipments and tools will be placed to facilitate RYDA activities/programmes.

See here below the clinic building.

Inset building is the RYDA Clinic

**Pictorial preview of donated Item truck at RYDA campus.**

**The excitement and impact of the donated Items.**

RYDA boasts of its novel approach toward development problems, where participation of the people and deciding and influencing their development is central.

With a special intention to the youth, women and disadvantaged rural and urban children, RYDA's principal Mission is to empower people by equipping them with information, skills, providing them with the opportunities that enhance and strengthening their potential to influence their own development.

Community empowerment and RYDA center activities and programmes will not be the same after this programme with acquired materials and tools.

Special thanks goes to all those who supported this project to be concluded successfully.
