

Maths With Attitude

<http://www.blackdouglas.com.au/taskcentre/resource.htm>

Our attitude is...

All students can learn to work like a mathematician
in happy, healthy, cheerful, productive, inspiring classrooms

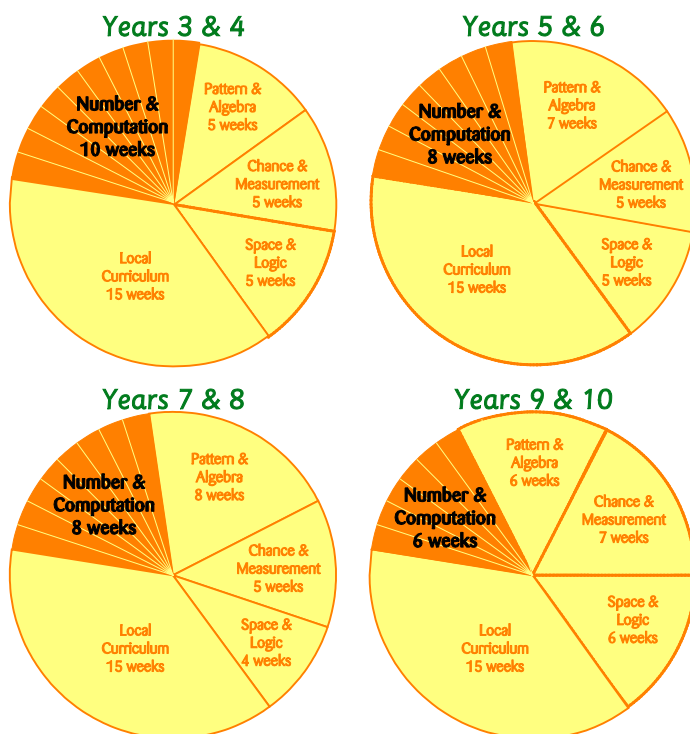

WORKSHOPS

We offer a range of professional development programs to support schools working towards this attitude as the core curriculum.

RESOURCES

In Maths With Attitude kits the Task Centre Project and Maths300 are united in a week by week flexible, integrated program. Each kit contains 20 hands-on tasks, a CD of lesson plans and a manual.

- Tasks invite students to work like a mathematician.
- Maths300 lessons help teachers model the work of a mathematician.
- Skills are developed and practised in context.
- Weekly planners are provided in each manual.

STRUCTURE

Kits are available at 4 pairs of Year levels: 3/4, 5/6, 7/8, 9/10.

Many weeks of investigative work for both years are included in each kit. At each level kits are in 4 strands:

Number & Computation
Pattern & Algebra
Space & Logic
Chance & Measurement

A total of 16 kits available from Years 3 - 10.

At each level the best of local practice is included as the 5th strand.

This diagram illustrates the overall structure and highlights the strand Number & Computation.

\$429 per kit

Non-members of Maths300 must also include \$495 for first year membership.
